Community engagement

GOAL: Build a community-centered system of care and strengthen the infrastructure needed to deliver coordinated, community-based services to individuals and highly impacted communities

CPHT Key Elements

Workforce Expansion

- Expand the public health workforce through partnerships with community-based organizations and local health care partners.

Capacity Building

- Build and maintain capacity of CPHTs to develop and apply equitable policies and practices to improve health outcomes of disproportionately impacted populations.

Service Coordination

- Expand the coordination and provision of field-based public health services to improve individual and community level health outcomes.

Strengthening Partnerships

- Mobilize partners to advance health equity and address social determinants of health.

Resource Networking

- Utilize a community-driven approach to build regional resource networks that address the needs of priority communities.

CPHT Partnerships

CPHT PARTNERSHIPS

The core members of each CPHT will represent diverse disciplines comprised of staff from local CBOs, community health care partners, and DPH to engage residents and address community health priorities. CPHTs will identify and secure additional partners to provide requested community resources and services aligned with community-identified need.

Core Strategies

Visit each household to conduct household needs assessment

Ensure residents are **connected** to needed health care and social services

Collect and analyze data from residents and secondary sources

Convene regular community meetings

Mobilize **partnerships**

CPHT communities

Community Selection
